Discussion Highlights:

1. Update on Police Accountability Board
   a. In May 2014, the Police Accountability Board was established to promote respect, accountability and trust between the UC Davis community and the police department.
   b. An annual report to include information on the number of complaints, the type of complaints, the outcome of cases and the Chief’s final decision will be made public. The report will also include any policy changes that the Board would like the Chancellor to consider.
   c. The Board has been moderately active this year and the process has served the community well.

2. Update on International Students Center
   a. The UC Davis International Center is currently under construction and is scheduled to open June 2016.
   b. The Center will house four programs:
      i. Extension Center
      ii. Global Affairs
      iii. Study Abroad
      iv. SSIS
   c. A portion of the site has been left undeveloped to allow for a future potential phase 2 construction project.
   d. SUGGESTION: The center could use a symbolic “centerpiece” to show international presence (i.e. artwork, flags, global sculpture, etc.)
