We, leaders of the African Diaspora on the UC Davis campus, call on the administration to take all actions deemed necessary to implement ALL of the following demands. These demands are necessary because our physical and mental well being is UNDER ATTACK. It is your duty to ensure that your students do not have to walk around campus fearing for their lives. The hate crime that occurred on Monday, February 15th at 3:00 AM is NOT an isolated incident. It was just one of many that was actually reported and followed up on. So, we are DEMANDING that our safety be a priority of the University of California, Davis and the UC system as a whole.

Our demands are as follows:

1. **Emergency Call Boxes**
   The University of California, Davis must reinvest in emergency call boxes. Campus aesthetics mean nothing in comparison to a life. We are demanding that administration bring call boxes to campus and not just in the Arboretum and West Village, but on all university property.

2. **Improved Lighting**
   UC Davis must install more lights in all areas of campus. Our lighting is subpar and therefore our safety remains an issue. It is irresponsible to have a campus as dark as ours with classes and labs that do not end until well after sundown. It is your duty to create a safe environment. We also demand that a letter be sent to the City of Davis to also review their ordinances regarding lighting and fix it. Again community aesthetics mean nothing in comparison to a life.

3. **Safer Transportation at Night**
   UC Davis must increase the current financial allocation to the following services to increase the resources and response times of the following services: Safe Ride, STS/Tipsy Taxi, and Unitrans. We understand that some of these are not within administration’s direct control. However, partnerships must be created in the interest of Black student safety.

4. **UC-Wide Policy that addressed Anti-Blackness**
   UC Davis must submit a letter of support urging the UC Regents to create a policy that targets Anti-Blackness on UC campuses. Part of the reason these incidents continue to occur at disproportionate rates is that our community is seen as less than, uncared for, and not worthy of support. IN ORDER TO ADEQUATELY ADDRESS OUR SAFETY YOU MUST VALIDATE OUR WORTH AND EXPERIENCE.

5. **A statement about the hate crime from West Village**
   West village management has yet to release a statement about the hate crime that took place last week Monday. Because the incident happened on West Village property it is necessary that they are also shedding light on the situation to residents that may not know about what took place. This statement will also help bring awareness to the fact that black safety is at risk on campus.

6. **Review and FINISH the demands PREVIOUSLY presented**
   We are grateful for our center, but we will not be appeased because of a single building on campus. Our experience, the hate, the racism will not be curbed because we have a center on campus. In order to be successful as students we need a number of other resources on campus. Invest in us.
